

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

Turfwett Non-Ionic Surfactant

Active Constituent: 1000 g/L alcohol alkoxyate

A non-ionic 100% wetting agent for the improvement of spray coverage when using agricultural chemicals

APVMA Approval No: 64107_0609

Pack Size: 5L, 20L

DIRECTIONS FOR USE

Turf Culture Turfwett Non-Ionic Surfactant can be used where the addition of a surfactant is required or recommended on the agricultural chemical label. Variations in conditions of use can require some changes in the amount of **Turf Culture Turfwett Non-Ionic Surfactant**.

Situation	Rate per 100L	Critical Comments
Non-Selective Herbicides FOLIAR ACTIVE	25 - 100 mL	Use the higher rate on waxy, hairy or hard to wet surfaces. Increase rate for dry soils.
Selective Herbicides IN CROP USE	25 -100 mL	Use when a surfactant is recommended on herbicide labels. Use the higher rate on waxy, hairy or hard to wet surfaces.
Soil Residual Herbicides	100 – 400 mL	When applied with soil residual herbicides to standing weeds, add Turf Culture Turfwett Non-Ionic Surfactant to thoroughly wet foliage. Consult product labels for individual recommendations.
Horticulture INSECTICIDES, FUNGICIDES AND GROWTH REGULATORS	40 - 100 mL	Vary rate according to volume and nature of the target. Use only when recommended on product labels.
Paraquat and diquat Herbicides Important when grasses are the major target	25 - 100 mL	Vary rate according to spray volume. Select rate in accordance with product labels.
Pasture Topping For use with glyphosate	125 mL	
Watering of Turf and Dust Abatement As additive to water	40 - 100 mL	Use the higher rate when watering turf.
Fire Fighting Water tanker Knapsack	5 mL/100L 2 mL/15L	In this field Turf Culture Turfwett Non-Ionic Surfactant has the advantage of less weight to carry compared with less concentrated surfactants and being non-flammable. It increases the wetting power of water, which assists in quick control and mopping up of fires. It is of particular value where water may not be readily available, when less drenching spray is needed, and a tankful will cover a bigger area.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

Note: Where product labels recommended the addition of a non-ionic wetting agent or as a percentage (%) dilution, add 100mL **Turf Culture Turfwett Non-Ionic Surfactant** per 100 litres to give 0.1%, 250mL/100L to give 0.25% or other rates as required using these examples.

MIXING

For wettable powders and water-soluble products, add **Turf Culture Turfwett Non-Ionic Surfactant** in before adding the agricultural chemical to spray tank. For emulsifiable products, add **Turf Culture Turfwett Non-Ionic Surfactant** after a good emulsion is formed.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Harmful to fish. DO NOT contaminate ponds, streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN.

Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple or preferably pressure rinse the empty container before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically

marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with the eyes and skin. When opening the container and preparing the spray and using the prepared spray, wear overalls buttoned to the neck and wrist (or equivalent clothing), goggles and elbow-length PVC gloves. After each day's use, wash gloves and contaminated clothing.

FIRST AID

If poisoning occurs, contact a Doctor or Poisons Information Centre. Telephone Australia 13 11 26.

MATERIAL SAFETY DATA SHEET

For further information refer to the Material Safety Data Sheet (MSDS), which is available from the supplier or from the manufacturers website:
